February 10, 2021

Outline

1 Introduction

A brief excursion into exo-politics

So Enrico, do you think we're still alone?

Ancient history I

Ancient history II

2 The Greada Agreement

3 Venusians visit the Pentagon

4 Telosian guests of honor

5 Reptilians

6 Heptaloids or Heplaloids

7 Tragic accidents, unexplained disappearances, and unfortunate deaths

8 Hypotheses about the Alien Agendas

9 References

Disclaimer

The expression of these questions, postulates, speculations, and perspectives are those of the author alone. They do not represent an official position at this juncture of any a agency or administration. They are presented as the overture for a conversation to explore these matters with a view to paving the way toward a more gentle resolution of issues bearing on the health and well-being of our relations with our galactic cousins and neighbors now as well as in our future.

A brief excursion into exo-politics

- We have to consider aspects of history that are controversial if we are to ascertain the hidden driving forces to arrive at a plausible interpretation.
- In this presentation, we offer some points worthy of consideration, from which may emerge a more gentle, civilized, and sophisticated orientation to others.
- We don't have to accept all of these events as presented, but we should consider them for their authenticity, reality, and contribution to our development.
- Lessons from lost history are possible: We need to acknowledge, understand, and respect all sentient beings with civility, compassion, and justice.

So Enrico, do you think we're still alone?

- The Fermi paradox maintains that if Aliens exist, where are they?
- They are waiting for us to become sufficiently civilized for them to make their introduction.
- They may be hoping for us to depart this highway to an inhabitable hell and to turn toward a better habitat for humanity.
- Culturally, we need to rid our cultural milieu of its racial ethnocentrism and our puerile hostile aggression under conditions of panic.
- To foster a culture of more civic responsibility within and between our countries.

More emphasis might be given to Diplomatic (soft power) development

- 1 Foreign aid to emerging democratic countries.
- 2 Foreign aid to non-governmental organizations
- 3 CDC guidance and support for the WHO.
- 4 More civilized methods of conflict resolution
 - Bilateral arrangements
 - Multilateral alliances
 - Global organizations like the UN and its agencies
- 5 To develop systems of conflict resolution that preclude escalation into areas that would be mutually and/or collectively destructive.

Ancient historical developments 1

- The oral legends of the Navaho, Ute, and Hopi as well as petroglyphs & legends refer to the star people, from whom we came.
- Summarian Cuneiform writings refers to such beings.
- Mayan and Aztec artifacts revealed by the Mexican government exhibit space suits with artificial breathing apparatus and flying machines.
- Renaissance paintings of flying saucers over the Birth of St. John.

If the provenances of famous painting are valid, such as, The Fifteenth Century Painting of Madonna and the Birth of Saint Giovaninni, what are the implications for our real history?

Madonna and the birth of St.
Giovaninni

Enlarged flying saucer in the upper
right of the painting.

Air war over Nuremberg in 1561

- 1561 Air Battle over Nuremberg painted on broadsheet by Hans Wolff Glaser in Figure 1 (Wikipedia) [3]

Figure 1: 1561 Broadsheet of sky-battle over Nuremberg by Has Wolff Glaser [3]

Ancient historical developments II

- If the following painting is authentic, and not some objet d'art forged by counter-intelligence "Mirage Men" to divert the aficionados from the real truth, what are the implications for our visitations by extraterrestrials (ETs) [23].
- 1486 Carlo Crivelli painting of flying saucer beaming on woman in prayer (Fig. 2.) "The Annunciation, with St. Emidius" [1].

Figure 2: 1486 Renaissance painting by Carlo Crivelli

Ancient Mayan artifacts revealed in by Mexican government in 2011 may imply Alien visitation

Ancient Mayan artifact of a flying machine

Ancient Mayan artifact of a possible alien visitor in space suit

Dr. Frank Drake formulated the Drake equation to assess the number of Extra-terrestrial intelligent civilizations in our Galaxy in 1961

The Drake equation is:

$$N = R_* \cdot f_p \cdot n_e \cdot f_i \cdot f_c \cdot L$$

where:

N = the number of [civilizations](#) in our galaxy with which communication might be possible (i.e. which are on our current past [light cone](#));

and

R_* = the average rate of [star formation](#) in [our galaxy](#)

f_p = the fraction of those stars that have [planets](#)

n_e = the average number of planets that can potentially support [life](#) per star that has planets

f_i = the fraction of planets that could support life that actually develop life at some point

f_i = the fraction of planets with life that actually go on to develop [intelligent](#) life (civilizations)

f_c = the fraction of civilizations that develop a technology that releases detectable signs of their existence into space

L = the length of time for which such civilizations release detectable signals into space^{[5][6]}

Figure 3: Drake formulated number of intelligent E.T.s in the Milky Way Galaxy: in short, the probability of intelligent life other than those who live on earth in the Galaxy is = 1.0.

If Ebens were watching our TV stations, concern arose over whether Ralph Kramden might be viewed as a role model for our etiquette

- Therefore, Carl Sagan prepared a golden disk for NASA describing the human species and by featuring Chuck Berry, singing "Johnny be Good," as a sample of our popular culture.
- Elvis Presley's "Jailhouse Rock" was not included.
- This golden record was the one placed on the Voyager spacecraft.

Archquloids were reported to have secretly meet President Eisenhower in February of 1954

- Ike secretly meets with the Archquloid extra-terrestrials at Muroc (now Edwards) AFB on Feb 19-21, 1954.
- The Greada Agreement: Providing a secret base for the E.T.s in return for help with reverse engineering of their craft [13].
- These Archquloid extraterrestrials (ETs) has serpentine vertical pupils and pronounced proboscus.
- Nordics or telosians offered technological help in return for nuclear disarmament.
- The Russians had just tested a nuclear bomb the previous year so the nuclear arms race was launched. Hence, Eisenhower refused the offer.
- Figure 4 depicts the appearance of an Archquloid with his translator device.
- Figure 19 shows the Archquloid saucer landing at Muroc AFB.

Sources of secret meetings

- Robert Oppenheimer and Albert Einstein (June, 1947) "Relations with inhabitants of other celestial bodies." [27]
- Paul Blake Smith, 2021, President Eisenhower's Close Encounters, an Amazon Kindle book.
- Howe, L.M. 2021 Gaia Truth Hunter season 1 lecture 8.
- Howe, L.M. 2021 Gaia Truth Hunter season 1 lecture 10.
- Paul Blake Smith, (2021) President Eisenhower's Close Encounters, an Amazon Kindle book.
- Michael Salla, Ph.D. (2012) Galactic Diplomacy: Getting to Yes with E.T..

Prominent astronauts who have indicated that we have been visited by Extraterrestrials

- 1 Gordon Cooper, one of seven US astronauts in Project Mercury, observed a flying saucer landing at Edwards AFB in 1957, had written to the United Nations about his having observed Alien craft far more capable than anything he knew about possessed by our military.
- 2 Dr. Edgar Mitchell, the sixth man to walk on the moon, believed that Alien visitation had been to explore our military development and to guide us onto a more peaceful path.
- 3 Buzz Aldrin had admitted to having seen Alien UFOs in space. He passed a lie detector test on the matter as well.
- 4 Pavel Popovich, a Russian Cosmonaut, commander of Vostok 4 and Soyuz 14, while flying home with a delegation of scientists, saw a triangular shaped UFO.
- 5 Donald Slayton, an American Astronaut, flying a P-51 mustang, observed a flying saucer.

Pre-eminent issues

- 1 Establishment of a protocol for communication.
- 2 Provision of essential environmental resources : breathable atmosphere, potable water, adequate foodstuffs and nutrients, and adequate facilities for sewage and waste removal.
- 3 Provision of adequate environmental requirement: tolerable temperature range, viral and bacteriological contamination.
- 4 Emergency provisions for decontamination and hospitalization to save and secure lives of sentient beings from danger of deficiency to any of the following.
- 5 Sources of efficient fuel may be needed. Provisions for these should be available.
- 6 Protection from threats to the foregoing from tornados, floods, extreme snow storms, deep freezes, or hurricanes, etc.
- 7 Issues of colony settlement, cross-cultural tutelage, travel, and acculturation would have to be addressed.

Archquloids arrive to secretly meet with Eisenhower in 1954

Figure 4: Archquloid from Planet Pontel with universal translator device in hand

Archquloids secretly meet with President Eisenhower in Feb. 19-21, 1954

Figure 5: Archquloid saucer landing at Muroc (now Edwards) AFB

Archquloids were cloned by EBENS acc. to Casey's briefing of President Reagan on 6-8 March 1981

- Source was a report Linda Moulton Howe read of that briefing [7].

ET communication was established

- 1 A 3 minute message was beamed at Messier 13 by 24 paritent scientists at Arecibo Observatory in Peurto Rico in the early 1970s [14].
- 2 Messier 13 is a cluster of 300,000 stars about 24,000 light years away.
- 3 Project Sigma permitted communication [14] [16] [15].
- 4 Project Plato pursued the exchange program as Project Serpo [24].

The Greada Agreement

Greada treaty Feb. 20, 1954 concluded with the Greys instead

- 1 Reported conditions of agreement: There would be a scientific exchange over a ten year period, later reported to have lasted for 1964-1978 [24], [25].
- 2 There would be an exchange advanced technology in return for secret bases.
- 3 Shower heads on bases would have two nozzles: One for water and one for enzymes, to be supplied by the Alien visitors [21].
- 4 They would bring their own food source, which we would have to learn to culture at Area 51 [21].
- 5 List of all abductees who would be returned to place of abduction without injury and without memory of the event.
- 6 Eisenhower reportedly did not believe we could effectively prevent the abductions and genetic experimentation so we relented.
- 7 It provided for secret bases for the Ebens on Government or Reservation land.
- 8 Ebens could conduct experiments on abducted persons or twins as long as they would not be harmed.
- 9 Genetic experimentation to fortify species for space travel and to prevent Eben species from dying off.
- 10 Memories of the experiments and tests would be erased.
- 11 May have included animals (cattle or sheep) to test for effects of radiation contamination from areas where secret or underground tests had been performed.
- 12 Organs or sampled organs were probably removed with harmonic or laser scalpels which cauterized the wounds.

Treaty records

- Because the Archuloids wanted nuclear disarmament in return for technological support, Eisenhower declined to accept their terms.
- The Treaty was signed with the Greys instead.
- Owing to the repeated Saturday July 1952 overflight of Washington, D.C. by saucers, which out-maneuvered our scrambled interceptors and spotted on radar, it was becoming more difficult to maintain their confusion with Project Mogul weather balloons.
- Original treaty papers were reportedly kept at the Brookings Institute [13], [16].
- Is this agreement valid and enforceable if not formerly ratified?

Small Greys were about 3.5' tall and usually took directions from tall Greys and/or Mantis Ebens

Figure 6: small grey

Tall Greys were about 5.6" tall and concluded Treaty with Eisenhower

Figure 7: Tall Greys would give orders to the small Greys

Treaty records

- Because the Archuloids wanted nuclear disarmament in return for technological assistance, Ike refused.
- The Treaty was signed with the Greys instead the following year.
- Original papers of the treaty were reportedly kept at the Brookings Institute [16]. [13]
- Is this agreement valid and enforceable if not formerly ratified?
- Friendly aliens should be treated with greatest respect and deference. We may need them to facilitate the pacific and amicable settlement of important disputes.

Lyrans follow a type C intervention protocol & came to earth about 22 million years ago [5, 95]

Michael E. Salla describes four intervention protocols pursued by different alien species:

- 1 Type A: Extraterrestrials establish 'ground teams' and Earth bases with members integrating into human society for monitoring and influencing humanity's evolution. Vital interests of individuals are respected.
- 2 Type B: Extraterrestrials physically contact individuals, share information, take individuals into their ships to witness advanced technologies, and/or take individuals to extraterrestrial bases or societies. Vital interests of individuals are respected.
- 3 Type C: type C: hands-off approach: esoteric telepathic communication & spiritual guidance.
- 4 Type D: Extraterrestrials establish technology exchange agreements with covert government entities and/or gain permission for genetic 'upgrade' programs, and basing rights. Vital interests of individuals are NOT respected. [5, 95].

First Lyrans came to earth about 22 million years ago

Figure 8: Pleiadians are descendants of the Lyrans

Lyrans from Pleiades

- from the ring nebula of Lyra
- Lyrans are our oldest ancestors, keepers of the Galactic history of earthlings [16].
- Pleiadians are descendants of the Lyrans
- large black almond eyes
- have fought battles with Greys in past and warned Billy Meier about their lack of empathy & wisdom in dealing with earthlings
- type B intervention protocol with personal interaction, giving rides on craft, and warnings about negative E.T. species.
- Primary mission is to warn Earth about negative ET species: e.g., Greys with whom they had wars in past.

Despite the UFO ... Contact from Semjase, the Pleiadians were the first to warn Earth about the danger that Grey aliens posed. The Pleiadians accused the Greys of having a lack of wisdom and empathy when using technologically inferior humans to serve their evil, remorseless purposes.

Semjase, a Pleiadian, allowed herself and friends to be photographed while visiting Billy Meier

Investigated by USAF Lt. Col. Wendelle C. Stevens and no evidence of fraud was found.

Figure 9: Cosmonaut Semjase, a Pleiadian, visiting Billy Meier in Switzerland

- Pleiadians reportedly were descendants of the Lyrans
- the Pleiades star cluster is about 440 light-years from earth
- Semjase assured Billy that he would be their representative on earth.:
- that they came from Taygeta with main planet Erra [16].

We are neither guardians of Earth nor beings of God-sent angels or similar. Many persons suggest we are watching over Earth and her beings and would control their fates. This is not true because we only perform a self-selected mission which has nothing to do with supervising or regulating Earth's fate. Thus it is wrong to expose us as superterrestrial messengers and guardians.

- Lt. Col. Wendell Stevens visited Billy Meier and had his photos and other material tested. No evidence of fraud or fabrication was found (Stevens, Lt. Col. W. C., UFO ... Contacts from the Pleiades - Vols 1 & 2).

Semjase

- Semjase was reported to have been identified as Maria Orsic, the Vril society leader, who allegedly channelled the "beamship" blue-prints to the Nazi SS.]
- More current reports indicate the Pleiadians were trying to help mankind find freedom through education and consciousness raising from oppressive social structures.
- More recent Interaction with the Pleiadians seems overwhelmingly positive.
- Semjase seemed to maintain that they Greys were taking advantage of us.

Figure 10: Semjase, the female Pleiadian, appeared to be Maria Orsic, acc. to Lt. Col. Wendelle .C. Stevens's report of what Billy Meier told him.

- Some, like the Arcturians (see picture on page 43), have blue skin, just like the Goddess Vishnu.
- In The book of Enoch, intermarriage between the Nephilim and humans and produced a race of giants that eventually died off [16].
- In a parallelism, Billy Meier mentions genetic experimentation between Lyrans and Vegans and humans produced a race of hybrid human –animals that eventually died off [16]

Valiant Thor, who claimed to be from Venus, appeared indistinguishable from an ordinary human,

until you found out that he was telepathic, brilliant, and wore clothes that were made out of indestructable, non-terrestrial material.

Frank Stranges in Stranger at the Pentagon in the (1997 revised ed.) reported Valiant Thor to be a VIP guest and consultant to the Eisenhower administration for his 3 year visit. Hosted by the Pentagon, Thor wrote several books while visiting Washington, D.C. and his friends, Howard and Connie Menger, in High Bridge, N.J. Their ships were similar to those reported by earlier contactees: namely, George Adamski in Flying Saucers have Landed (1953) by Desmond Leslie and George Adamski [29].

Figure 11: Valiant Thor wrote several books during his three year visit

Valiant Thor with his space-traveling companions.

Valiant Thor, Jill, and Don visiting High Bridge, New Jersey.

Figure 12: Jill (left), Don(middle), and Valiant Thor (right) visiting Howard & Connie Menger in High Bridge, New Jersey

Telosians, tall whites, or Nordics

- Telosians were honored guests of the Pentagon, living on the Nellis range near Indian Springs, Nev.
- Friends of Charles James Hall, Jr. about whom he wrote in his Millennium Hospitality Vols 1-5 series.

Figure 13: Tall White, Nordic, Telosian

Quadroids

- Putatively carnivores.
- Linda Moulton Howe claims she read that Quadroids were cloned by Ebens from humanoid lizards and praying Mantis aliens [7].
- Some are reptilian in appearance and reported to live in subterranean tunnel systems.
- Very intelligent and wise ETs according to Preston Dennett [17].
- Mantis insectoid (shapeshifters) Ebens.
- reportedly created by Ebens From Planet Otto in the Zeta Reticuli (approx. 39.5 light years from Earth) system

Mantis alien confronting young boy

Lacerta: a humanoid reptilian reportedly interviewed in Sweden on youtube

Trantaloids

- potentially hostile alien visitor (HAV) from Planet Silus in the Zeta-Reticuli system
- home is 10.5 light-years away in the third planet from Epsilon Eridani in the constellation Eridanus
- an insectoid species
- suspected of performing experiments on humans
- reputed to cross-breed with humans
- may be responsible for some cattle mutilations
- reportedly capable of appearing human (from Briefing of Ronald Reagan by DCI William Casey and others on E.T. presence on Earth)
- reportedly potentially dangerous to humans [7].

Draco Reptilians

- The existence of Draco-Reptilians was reported by Romanian General Emil Strainu.
- Draco refers to being winged and capable of flight as found in Figure 41.
- They are reportedly imperialists, who prefer others to do the fighting for them.
- Rumored to have been allied with Nazis and to have had a secret base in Antarctica, with whom Adm. Byrd had a run-in on Operation High Jump in Antarctica after WWII 1946-1947.

Reptilians and Draco Reptilians

Reptilian

Winged Draco Reptilian.

Heplaloids

- The Heplaloid home is reported to be Planet Damco in the Cygna arm

Figure 14: "Skinny Bob"

Some Ebens remain aloof and others have been attacked by panicked local people

- Other Ebens include:

Arcturians are among the more advanced Ebens

Aug 22 1955 Hopkinsville, Kentucky goblins (2.5-3.5' tall) were shot at by panicked farmers and friends with a 20 guage shotgun as they approached the Sutton farm.

Tragic accidents, unexplained disappearances, and unfortunate deaths may follow from ignorance of potential hazards

even radiation burns may stem from touching or close proximity at a wrong time

- 1 Jan 7, 1948: Capt. Thomas F. Mantell's P-51 Mustang crashed when he tried to intercept a flying saucer (unidentified aerial phenomenon).
- 2 Nov. 23, 1953. First Lt. Mencla and 2nd Lt. Robert L. Wilson were scrambled at Kinross AFB to investigate a UFO over Soo Locks on the Canadian border. Acc. to Donald Keyhoe, USMC, the radar blips merged into one which continued northward. The F-89C crew disappeared.
- 3 May 1967 Stefan Michalak stomach was burned when a saucer took off while he was too close at Falcon Lake, Manitoba, Canada.
- 4 1976 Teheran. Attempted interception of flying saucer in military airspace almost causes F-14 to crash.
- 5 Jan 1978 Death of small Grey eben at Fort Dix, McGuire AFB, NJ.
- 6 Oct 21 1978 Pilot Frederick Valentich disappeared after coming into contact with UAP off the southern coast of Australia
- 7 1980 Christmas Holiday 1980 Betty Cash- Vicky Landrum were exposed to radiation leaking from a reverse engineered UFO. Exposure may accelerated death in one or more persons. Special operations military retrieved it but would not acknowledge ownership.
- 8 1980 Boxing Day RAF Bentwaters irradiation of military security personnel Sgts. John Burroughs & Jim Penniston in their approaching and/or touching the UFO..

Lessons Learned

Stefan Michalak was treated at a hospital for burns to his chest and stomach that later turned into raised sores on a grid-like pattern.

Caveats for investigation: Warnings 1

- 1 Be sure the craft and its landing zone is not emitting radioactivity before approaching it (Figure 15).
- 2 Do not touch craft surface before landing until it has removed its accumulated ionized plasma sheath by landing and grounding.
- 3 Meta-material surface can carry information via nanotubular photonic channels in non-ionizing frequencies, exposure to the harmonics of which can be biologically harmful to humans [2], [7].
- 4 Attempting to attack a flying saucer may lead to self-destruction; UAPs have overwhelming counter-measures and weapon systems: ETs can telepathically sense intended human aggression [19].

Exposure to ET pathogens can be lethal

Figure 16: Photo of captured ET, exposure to whom led to a healthy 23 year old Bracilian military policeman's death in Brazil about 23 days thereafter

Caveats for investigation: Warnings 2

- ① Troops who shot at saucers have been disabled or killed in the Korean & Vietnam wars [19].
- ② Predatory hunting and endangering of innocents is deprecated by some Eben species.
- ③ Deadly incident In Virgíñha, Brazil:
 - a young, healthy military policeman spotted an E.T., seized it, put it in his car, and took it to the hospital for analysis (ET type in Figure 16).
 - After 23 days, his immune system collapsed, and he died from exposure to three ET pathogens.
 - Attempted physical contact with an E.T. may jeopardize one's health, if one does not protect his or her self from pathogenic exposure.
- ④ When three Russian divers in 1982 at Lake Baikal, Russia, tried to capture some amphibian Ebens , colloquially called "the swimmers", clad in silvery suits and helmets, at a depth of 50 meters in the lake."the swimmers" set off an underwater explosion that forced the Russians to suddenly surface, leading to the deaths of several Russian divers [22].

Safety recommendations for investigation and travel - Warnings 3

- 1 Have appropriate apparel for trip and environments.
- 2 Decontaminate before entering or exiting such craft.
- 3 Ascertain need for shielding from cosmic radioactivity and/or inertial pressure if interstellar hitchhiking.
- 4 Be sure of sufficient tasty nutrition and drink for trip.
- 5 Study customs and commerce protocol and funds needed before trip.
- 6 Pack needed first or second aid materials for trip.
- 7 Ascertain potential threat assessment and arms needed for travel and visit.
- 8 Insure for an emergency return if necessary.
- 9 The failure to arrive at adequate WMD arms control will necessitate the increased cosmic surveillance permissive action links on earth by Ebens.

Hypotheses about the Alien agendas

- 1 To prevent global nuclear war
- 2 To abolish racial ethnocentrism to open our minds to other species.
- 3 To preserve the environmental habitability of the planet
- 4 To reduce economic resource scarcity and war
- 5 Purpose of abductions: To genetically enhance the human species by genetic experimentation and hybridization for space travel and global warming.
- 6 To render mankind sufficiently civilized to join a galactic federation (are we ready yet?)
- 7 They may want to teach man space law before he endeavors to engage in interplanetary colonization, interstellar mining, refining, commerce, environmental protection, and the pacific resolution of disputes before he begins polluting the galaxy and disturbing universal peace.

Galactic Static Diplomatic Rules

in hotspot areas

With respect to regions of countervailing alliances, contiguous border tension, racial or ethnocentric intolerance, and challenged border integrity:

- 1 Can we delegate crisis managers to mediate or to de-escalate tensions as well as to interpose peacekeeping operations during negotiations?
- 2 Can we design protocols of military de-escalation through reciprocal graduated weapons reduction?
- 3 Can these measures be applied to the range of delivery systems of such weapons systems?
- 4 Can we come to an agreement with all WMD powers to automatically attack or embargo any state or alliance that initiates a first WMD strike?
- 5 Can we come to an agreement for mutual, reciprocal disarmament in limiting the ranges of all delivery systems?
- 6 Can we come to an agreement for mutual, reciprocal disarmament in limiting the types of weapon systems?
- 7 Can we come to an agreement for respect of the integrity of sovereignty of all states members of the U.N. against cyberattacks against critical infrastructure and election systems?

Galactic Static Diplomatic Rules-cont'd

- Can we develop an adequate surveillance system for all of the above to be sure that no state violates the accords?
- Can we impose collective sanctions against imperialistic states: particularly, those that military seize and hold the territory of others?
- Do we need the help of the ETs to design a system of de-escalation with respect to all weapon-systems of mass destruction or disruption?

Galactic Dynamic Diplomatic Rules

- 1 Can we regulate the technological defense development so as to maintain countervailing development but not yield too advantageous a posture?
- 2 Can we construct an automatically escalating sanction system against proliferators of WMD or WMDisruption?
- 3 Can we surveil the growth rates of weapons systems to detect aggressive intent or impending disequilibrium of balance of power?
- 4 Can we identify emerging threats by identifying systems that reduce delivery time of WMD.?
- 5 Can we limit the extension of ranges of missiles that deliver WMD?
- 6 How can we verify protection of arms control surveillance systems?
- 7 Do we have sufficient redundancy to assure adequate arms control failsafe systems?

Transnational Terrorism and navigation constriction

- 1 Can we protect the weapons surveillance systems around the globe from attack?
- 2 Do we have backup systems in the event of an attempted attack on those systems?
- 3 Can we get alliance cooperation in preventing WMD non-proliferation?
- 4 We need to have a *universal off-limits protection* of our **critical infrastructure**—including our electoral systems, power grids, nuclear, chemical, water treatment, health, food and agricultural facilities, among others.
- 5 Can we interdict emerging threats by pirates or terrorists in the oceans and along areas of coastal instability?
- 6 Can we identify and neutralize sects/cults or states trying to use nuclear, biological, chemical, cyber, or electromagnetic weapons to extort their objectives?
- 7 We need to secure the transportation on land, the high seas, in the air, or in space.
- 8 How can or do we enlist the Ebens to help us prevent WMD holocaust?
- 9 How can or do we enlist the Ebens to help us make a more cooperative, productive, and happier world?

Implications and Directions for future research according to Deardorf, J. Haisch, B., Maccabee, B., and Putoff, H.E., 2005

- 1 We are not alone, Enrico Fermi. We are being visited and have been for some time [26].
- 2 The E.T. Hypothesis is now the most plausible scientific explanation of high quality UFO sightings.
- 3 This evidence challenges the findings of the 1968 Condon Committee (which committee did not have access to all the information on the subject) Report for the US Air Force
- 4 Faster than light travel may be possible, by warping space with a form of "warp drive" [26].
- 5 Maintenance of traversable wormholes needs to be researched.
- 6 E.T. presence may account for high quality UFO reports [26].
- 7 It may be possible to generate endless power from the vacuum of space, obviating the need from fossil fuel for energy [26]. Examine the Searl Energy Generator [28].
- 8 Interstellar travel may be practical and practicable according to scientific principles not yet understood [26].

Other inconvenient implications

- 1 We may not have complete control of our skies
- 2 This is not what states are inclined to admit.
- 3 Binary choice logic is a primitive choice. Entities may be friend, foe, or unknown. If unknown, the entity may be neither, partly disabled, and/or lost. It may be potentially friendly if properly approached.
- 4 The advantages of a non-hostile assumption may far outweigh a hostile assumption.
- 5 It is better to be kind, compassionate, and not presume hostility when we have not identified the craft.
- 6 It is better to communicate and to inquire before jumping to erroneous conclusions.

The late US Army Sergeant Clifford J. Stone, ret., admitted serving as a member of top secret UFO crash retrieval team left us with something to think about

- Stone claimed to know of more than 57 species of visiting Ebens.
- He made this statement in public at the National Press Club in Washington, D.C. on December 9, 2001 that there are more than 57 species of Aliens that have visited earth.
- He made the point that they are not hostile and pose no threat to our national security [10].
- As Commander David Fraver, flying an F-18-F "Super-hornet," said in checking out the tic-tac UFO on Nov. 14, 2004 that the UFO capabilities were beyond anything he was aware that we had. I would infer that if the tic-tac craft was hostile, his plane would not have fared so well. He was judiciously non-provocative. I would have recommended that he should have tried to communicate in a friendly way with the craft.

US ARMY Sergeant Clifford J. Stone, retired, left us something serious to consider

- We are about to begin to travel in space.
- Soon, we will be appear to be traveling in some else's UFOs.
- How would we want to be welcomed and treated? [18] [10].
- It is not necessary to accept all of these events as real. They raise many more questions than they answer. The one thing they teach us is that we are not alone. It probable that we have been visited for millenia.
- Whether in the Bible, history, or in current events, Ebens and human beings continue to teach us how important it is that we be as good as we can be to one another. Diversity is the norm. Tolerance and respect for it should be *de regèur*. We have to work within that milieu to render the world a better and more habitable place if it is to be preserved.
