

A Synopsis of Sightings of Unidentified Aerial Phenomena on Earth, 4th ed.

Robert Alan Yaffee, Ph.D.

Sept 10, 2022

Table of Contents I

- 1 Table of Contents
- 2 Disclaimer
- 3 Nomenclature
- 4 Motivation: Providing information to help answer fundamental questions about life in the cosmos
- 5 Introduction to a brief historical excursion into exo-politics
 - Ancient history I
 - Ancient history II
 - Recent historical review
- 6 Testing the Extraterrestrial Hypothesis
 - Number of E.T. species
 - Some Types of E.T. species
- 7 The Hypothesis of E.T.- Governmental Collaboration
 - Testing the E.T. - Governmental Collaboration hypothesis: Establishing Communication Preparations and protocols
 - Final parties to the Agreement
 - A Report of the Greada Agreement February 19-20, 1954
 - Some of its terms and conditions
 - Evidence of E.T. - U.S. collaboration:
 - Visiting E.T. Diplomats are hosted by the Pentagon

Table of Contents II

Evidence of E.T. - U.S. collaboration:

Other E.T. guests of honor are secretly hosted by the Pentagon

8 Hypotheses about Alien Agendas

9 Findings:

Findings: Attempted military attacks proved futile

US troops were disabled by some UAPs during the Korean War

Military engagements in the 1960s and 1970s

10 Practical Implications

Problems with complete disclosure

Tragic accidents may follow from ignorance of potential hazards

Caveats for investigation, interception, or attack

The Danger Zone

ET pathogens

11 References

Disclaimer

The expression of these views and positions are those of the author alone. They do not represent an official position of any governmental agency or administration. They are developed from a historical and scientific interpretation compilation of related reports. Till such time as they are supported by empirical observation, measurement, and testing, they remain reasoned speculation and formulated hypotheses.

As there is some indication of inter-subjective support, these views and hypotheses may be factoidal. Following testing and replicated testing, these perspectives and operationalized hypotheses may be deemed to be facts. Meanwhile, their interpretations are offered as an overture to stir public discussion, consideration, and understanding of matters bearing on the health and well-being of our relations with our galactic neighbors now as well as in our future.

My scientific empiricism predisposes me to demand replicable empirical evidence that is susceptible to inter-subjective observation, measurement, and testing according to reliable and valid methods. This makes acceptance of assertions of reality of such E.T. entities so rarely seen in public or on official media a bit of a challenge. Could these entities be drones or programmable robotic life-forms with cerebrally controlled artificial intelligence? Former governmental officials have admitted to launching counter-intelligence operations to confound possible adversaries by convincing individuals that what they had been observing were really E.T. visitors (Richard C. Doty as cited The Paul Bennewitz case as an example of this: [27]).

Nomenclature: What is a UAP (UFO) and/or USO?

- Luis Elizondo, former head of US Department of Defense, Advanced Aerospace Threat Identification Program, provides **five observable criteria**
- A UAP is an unidentified aerial phenomena that lands on and/or take off from the land on Earth or some other celestial body. (a.k.a. UFO)
- A USO is an unidentified submersible object. It may emerge from the sea or ocean or lake or river as well as dive into any of those bodies of water.
- ① A UAP may be either or both of the above definitions, and be capable of trans-medium travel, from the land to the water or *vice versa*.
- ② These UAPs and/or USOs are capable of sudden acceleration and hypersonic speeds.
- ③ They may make right-angle or acute angle turns at high speeds.
- ④ They appear to have some sort of anti-gravity ionic drive or field propulsion; they need no airfoils, wings, or elevator surfaces required for air travel.
- ⑤ They may have cloaking, spoofing, and camouflaging (low visibility) capability [37].

Nomenclature: J.A.Hynek's Kinds of E.T. Encounters

- ① 1st kind: visual sightings
- ② 2nd kind: interference by UFO with earthly vehicle
- ③ 3rd kind: human in the presence of an E.T.
- ④ 4th kind: human abducted by an E.T.
- ⑤ 5th kind: direct communication between E.T. and human
- ⑥ 6th kind: death of human or animal associated with sighting of E.T. or UFO.
- ⑦ 7th kind: creation of human/alien hybrid by sex or artificial insemination

Other acronyms and abbreviations

- AFB Air Force Base
- CIA Central Intelligence Agency
- DCI Director of Central Intelligence
- DIA Defense Intelligence Agency
- Ebens Extraterrestrial biological entities
- E.T. extraterrestrial
- DOD Department of Defense
- MOD U.K. Ministry of Defense
- MJ-12 US Governmental supervisory command authority (consisting of 12 principal members) regarding ET technology and ET matters.
- USAFOSI United States Air Force Office of Special Investigations

Essential questions about human life and the cosmos are posed by observing the UAPs

We will try to provide some answers to basic questions in a responsible and practical manner. We will also provide some places where people can obtain answers to their own questions that may arise from observation or conversation about these phenomena.

- 1 What is the place origin of the UAPs?
- 2 Who or what is piloting them?
- 3 How long have they been visiting Earth?
- 4 What is the agenda of those pilots?
- 5 Do they pose a threat? If so, to whom, how, and why?
- 6 How should we attempt to deal with them?
- 7 Who can help us answer these and more personal questions that people may have?

We should endeavor to understand Donald Rumsfeld's classification of knowledge

Rumsfeld's Feb. 12, 2002 DOD briefing exploring knowledge's limits

- 1 There are some things we know that we know. We can consciously improve upon these.
- 2 There are some things that we know that we do not know. These we can study and research.
- 3 There are other things that we do not know we do not know. These are the difficult ones that can blindside and hurt us as we look back in our history.
- 4 There are still other things that we do not know that we know (and may have forgotten but can recall if we calm ourselves and meditate about them).
- 5 See Figure 1

The Johari Knowledge Window

Johari Window 1955 by Joseph Luft and Harry Ingraham

There may be a masking of a phenomenon as another like a false flag phenomenon or there may be a cloaking of phenomena from observation (within the blind spot). Foresight may reside in the third quadrant.

Figure 1: Joseph Luft and Harry Ingraham's Window

- To know is to observe
- to measure
- or to test
- usually so one can record and inter-subjectively confirm the results

A brief excursion into exo-politics

- We have to consider aspects of history that are controversial if we are to ascertain the hidden driving forces to arrive at a plausible interpretation.
- In this presentation, we offer some points worthy of consideration, from which may emerge a more gentle, civilized, and sophisticated orientation to others.
- We don't have to accept all of these events as presented, but we should consider them for their authenticity, reality, and contribution to our development.
- Lessons from lost history are possible: We need to acknowledge, understand, and treat all sentient beings with respect, civility, compassion, and justice.

Ancient historical developments 1

Figure 2: Rukma Vimana

- The Mahabarrata tells of Vimanas (flying cities or ships) that were used in wars and to carry gods hither and yon (Figure 2).
- The oral legends of the Navaho, Ute, and Hopi as well as petroglyphs & legends refer to the star people, from whom we came.
- Sumarian Cuneiform writings refers to such beings.
- Mayan and Aztec artifacts revealed by the Mexican government exhibit space suits with artificial breathing apparatus and flying machines.
- At least one Renaissance painting depicts flying saucers over the Birth of St. Giovannini, as shown in the Figure below.

If the provenance is valid, The Fifteenth Century Painting of Madonna and the Birth of Saint Giovaninni, what are the implications for our real history?

Madonna and the birth of St.
Giovaninni

Enlarged flying saucer in the upper
right of the painting.

Air war over Nuremberg in 1561

- 1561 Air Battle over Nuremberg painted on broadsheet by Hans Wolff Glaser in Figure 3 (Wikipedia) [3]

Figure 3: 1561 Broadsheet of sky-battle over Nuremberg by Has Wolff Glaser [3]

Ancient historical developments II

- If the following painting is authentic, and not some objet d'art forged by counter-intelligence "Mirage Men" to divert the aficionados from the real truth, what are the implications for our visitations by extraterrestrials (ETs) [27].
- 1486 Carlo Crivelli painting of flying saucer beaming on woman in prayer (Fig. 4.)"The Annunciation, with St. Emidius" [1].

Figure 4: 1486 Renaissance painting by Carlo Crivelli

Ancient Mayan artifacts revealed in by Mexican government in 2011 may imply Alien visitation

Ancient Mayan artifact of a flying machine

Alternatively, they may have been artistic attempts to describe aspirations of the capability of flight to man rather than to describe the appearance of E.T. visitors to this planet.

Ancient Mayan artifact of a possible alien visitor in space suit

Recent historical review I

- 1 1884 June 6 John Ellis et al. (63 years before Roswell) in Max, Nebraska discovered a crashed craft, reported by the Nebraska State Journal 3 years later.
- 2 1987 April 17, Aurora, Texas E.T. vessel crashes into windmill on Judge Proctor's property and E.T. pilot dies and is given a proper burial in the local cemetery. Mr. Brawley Oats bought the property and buried the crash debris in a well. Oates developed arthritic tumor, he suspected came from proximity or contact with the debris. Investigative journalist Jim Marrs reported this matter in his 2002 work, "The UFO Crash of 1897."
- 3 Around the *Fin de siècle*, secret Prussian aircraft societies, inspired by Charles August Albert Dellschau, Carl Wilhelm Otto Lilienthal, and Gustav Freyer, based first in Texas and later in California (e.g., the Sonoro Aero Club about 130 miles East of San Francisco), were spotted by people and reported in some local papers as they tested new flying craft that crossed the North American Continent [40], [41].
- 4 1936 Black Forest Flying Saucer crash in Germany. In 1936, a UFO crashed in the Black Forest of Germany. Hitler ordered a full scale investigation and the Nazis began reverse engineering the technology.

Recent historical review II

- 5 Victor Schauberger's research was reported to have been incorporated into Nazi "Die Glocke" (The Bell) vessel. Many of his assistants reportedly developed fatal health problems.
- 6 Nazi Haneubu models 1 through 4 were developed before the end of WWII, under the guidance of the SS and possibly Hans Kammler.
- 7 Hans Kammler (Dr. Walter Dornberger), who reportedly died in four different ways, was in charge of jet aircraft and vengeance weaponry for the Nazi SS but was at Bell Aircraft in the U.S..
- 8 General Eisenhower and Winston Churchill decided during WWII that the flying saucer technology needed to be kept secret for some span of time, as it was far superior to our aircraft capability and knowledge of ET's could destabilize the religious institutions [12, 29].
- 9 1941, Cape Girardeau, Missouri. crash. Pastor Mann read the last rights for three small hairless aliens, whose bodies were buried 15 miles outside of town, according to the Pastor's family.
- 10 1944-1945 Operation Paperclip provides amnesty and new identities for Nazi scientists who are willing to cooperate with the U.S.military in the need for technological development.

Recent historical review III

- 11 Hermann Oberth, brought to the U.S. under Operation Paperclip, admitted that the Nazis had ET help in developing their flying saucers.
- 12 1946-1947 Operation High Jump mission aborted after loss of men, vessels and helicopters in attack by Nazi Haunebu flying saucers emerging from Antarctic base. Admiral Byrd was admonished to avoid discussion of the mission and its abortion.
- 13 June 24, 1947 pilot Kenneth Arnold, flying near Mt. Ranier, observed 9 flying saucers.
- 14 1947 July 3, there was a flying saucer crash at Corona, N.M. 75 miles away from Roswell, as well as the one on Matt Brazell's ranch near Roswell. He brought debris from the crash into authorities a day or two later.
- 15 1947 September 24 MJ-12 was placed in charge of the ET and flying saucer matters by Pres. Harry Truman. Top scientists, the CIA., and DIA, held an advisory role in MJ-12 supervision of the cosmic matters [42].
- 16 1948 March Aztec, N.M. crash written up later by Frank Scully.
- 17 1950 March Farmington, N.M. sighting of saucer armada.

Recent historical review IV

- 18 1952 July Washington, D.C. buzzed by fleet flying saucers. Scrambled jets could not catch or outmaneuver them.
- 19 1954 February 20-21 Eisenhower secret rendezvous with E.T.s at Muroc (Hollomann) AFB according to Art Campbell and Bill Kirkland at X-Conference in 2009. A Greed Agreement (The Omega Secret). [12]. was negotiated, according to which some Alien species were given secret residential status in return for assistance on matters of technology [12, 29].
- 20 1955 We (me and my 12 year old friend) observed a flying saucer in Glens Falls, N.Y. but did not observe it perform any of Elizondo's observable criteria. The two pilots appeared to be human (from our view of their torso silhouettes, which was not close enough to distinguish them from humanoid non-humans). Aware of the desire of US intelligence to keep these matters secret, I admonished my 12 year old friend that we should not publicly talk about it. I decided to release this information at the appropriate time.
- 21 2002 January 14, Paintsville, Kentucky. A coal train collided with UFO hovering about 12 feet over the track, severely damaging the engine [36].

Testing the Extraterrestrial Hypothesis: Number of Visitors acknowledged by former Government Officials

- Former Canadian Minister of Defense Paul Hellyer: 4
- USAF Office of Special Investigations, Richard C. Doty: 5
- US Army Sgt. Clifford Stone (retired) : 57+

Former Canada defence minister claims ...
dailymail.co.uk

Former Canadian Minister of
Defense, Paul Hellyer

Richard
Doty

USAF Office of Special Investigator
Richard C. Doty, retired

US ARMY Sergeant Clifford J. Stone, retired

Figure 5: former US Army Sgt. Clifford Stone

- According to Stone, "We are about to begin to travel in space." We will soon be seen as aliens to denizens of other worlds, moons, or stars that we visit.
- Soon, we will be appear to be traveling in some else's UFOs.
- How would we want to be welcomed and treated? [22] [13].
- The one thing they teach us is that we are probably not alone. There is ample evidence that have been probably been visited for millennia.
- Whether in the Bible, history, or in current events, Ebens and human beings continue to teach us how important it is that we be as good as we can be to one another. Diversity is the norm. Tolerance and respect for it should be *de regèur*. We have to work within that milieu to render the world a better and more habitable place if it is to be preserved.

The late US Army Sergeant Clifford J. Stone, ret., admitted serving as a member of top secret UFO crash retrieval team left us with something to think about

- Stone claimed to know of more than 57 species of visiting Ebens.
- He made this statement in public at the National Press Club in Washington, D.C. on December 9, 2001 that there are more than 57 species of Aliens that have visited earth.
- He made the point that they are not hostile and pose no threat to our national security [13].
- As Commander David Fraver, flying an F-18-F "Super-hornet," said in checking out the tic-tac UFO on Nov. 14, 2004 that the UFO capabilities were beyond anything he was aware that we had. I would infer that if the tic-tac craft was hostile, his plane would not have fared so well. He was judiciously non-provocative. I would have recommended that he should have tried to communicate in a friendly way with the craft.

Former USAF weatherman: Charles J. Hall, Jr.

Testing the Extraterrestrial Hypothesis

Tall White E.T.s reside on a secret part of the Nellis Range in Nevada

- According to Charles J.Hall, Jr. , in his series **Millenial Hospitality, Vols.1 through 5** there is non-human intelligence (Hall calls them "Tall Whites") residing as guests of the U.S.military on part of the Nellis AFB range, [2].

Former CIA officer Jim Semivan: There is non-human intelligence living with us on Earth

Testing the Extraterrestrial Hypothesis

there is currently non-human intelligence living with us on Earth

- According to Jim Semivan, there is non-human intelligence living with us on Earth now [38].
- They have been visiting us for thousands of years, according to former USAFOSI official, Richard C. Doty.

Testing the Extraterrestrial Hypothesis: E.T. Visiting Species, according to Richard C. Doty, USAF retired

Figure 6: Five of the visiting E.T. species—specifically, a Grey, Eben, Nordic, Haplaloid, and a Trantaloid

Less well-known visitors

- 1 David Adair has mentioned Aquafarians
- 2 Silicon based E.T.
- 3 among others

David Adair spoke of this species

Randy Cramer claimed to have encountered an insectoid

Draco Reptilians

- The existence of Draco-Reptilians was reported by Romanian General Emil Strainu.
- Reptilians have vertical slits for pupils.
- Draco refers to having wings and being capable of flight as found in Figure 29.
- They are reportedly imperialist conquerors who prefer others to do the fighting for them.
- Rumored to have been allied with Nazis and to have had a secret base in Antarctica, with whom Adm. Byrd had a run-in on Operation High Jump in Antarctica after WWII 1946-1947.

Reptilians and Draco Reptilians

a Reptilian

Winged Draco Reptilian.

Heplaloids

- The Heplaloid home is reported to be Planet Damco in the Cygna arm

Figure 7: "Skinny Bob"

Archquloids were reported to have secretly meet President Eisenhower in February 20-21, of 1954

- Ike reportedly secretly meets with the Archquloids extra-terrestrials at Muroc (now Edwards) AFB on Feb 19-21, 1954 [9], [12]
- The Greada Agreement: Providing a secret base for the E.T.s in return for help with reverse engineering of their craft [9], [12], [16].
- These Archquloid extraterrestrials (ETs) has serpentine vertical pupils and pronounced proboscis.
- Nordics or Telosians offered technological help in return for unilateral nuclear disarmament.
- The Russians had just tested a nuclear bomb in 1949 so the nuclear arms race was launched. Hence, Eisenhower refused the offer.
- Figure 8 depicts the appearance of an Archquloid with his translator device.
- Figure 43 shows the Archquloid saucer landing at Muroc AFB.

Testing the Extraterrestrial Hypothesis: Citations of sources of secret meetings

- Robert Oppenheimer and Albert Einstein (June, 1947) "Relations with inhabitants of other celestial bodies." [31]
- April 4, 1951 Psychological Strategy Board guided by G. Grey would develop policies for cold war protocols under MJ-12.
- Paul Blake Smith, 2021, President Eisenhower's Close Encounters, an Amazon Kindle book.
- Howe, L.M. 2021 Gaia Truth Hunter session 1 episode 2.
- Howe, L.M. 2021 Gaia Truth Hunter season 1 episode 8.
- Howe, L.M. 2021 Gaia Truth Hunter season 1 episode 10.
- Paul Blake Smith, (2021) President Eisenhower's Close Encounters, an Amazon Kindle book.
- Howe, L.M. 2022 June 29 Earthfiles. Youtube, [9]
- Michael Salla, Ph.D. (2012) Galactic Diplomacy: Getting to Yes with E.T.. [5]

Testing the Extraterrestrial Hypothesis: Early US contactees were reportedly closely monitored by the Government I

- 1 They were contacted to help prepare the Earth for Galactic Status and the obsolescence of nuclear weapons and their ballistic delivery systems.
- 2 Multiple former military and government officials have acknowledged that Aliens exist and live among us, that we are not alone. Nor have we been alone. We have been visited for millennia. Among these leaders are former USAF Lt. Col. Wendelle C. Stevens, former CIA official Jim Semivan, former Cmd. Sgt. Major Robert O. Dean [2], [10], [25], [38].
- 3 We must be willing to acknowledge Charles J. Hall, jr.'s Millenial hospitality.

Testing the Extraterrestrial Hypothesis: Early US contactees were reportedly closely monitored by the Government II

- 4 George Van Tassel's annual conferences at Giant Rock became an annual festival reportedly attended by Federal agents Van Tassel claimed ETs gave him the secret to preserve youth and he set about building the Integratron to assist this process but died before he could complete it.
- 5 George Adamsky was visited by Orthon who claimed to be a Venusian [33].
- 6 Orthon tried to suggest that the U.S. should not shoot at the saucers. This was not accepted at first by the U.S. government.
- 7 Val Thor also claimed to be from Venus and became a VIP consultant to the Eisenhower Administration for his three year visit [19, chap6].

Testing the Extraterrestrial Hypothesis: Early US contactees were reportedly closely monitored by the Government III

- ⑧ Daniel Fry, Dan Sherman, and George Hunt Williamson were other contactees. Sherman bowed out when he learned about the abductions.
- ⑨ Howard Menger was one of Val Thor's contactees. Menger lived in High Bridge, N.J. [19, Chap6].
- ⑩ US counterintelligence was fearful that foreign powers could use leverages against the national interest for which reason the FBI, USAF-OSI, MJ-12, and the CIA monitored contactee activities [27].
- ⑪ Extraterrestrial exposure Act authorized detention if they came into contact with an ET and if it was deemed to be of national interest [5], [27].

Testing the Extra-terrestrial Hypothesis: Prominent astronauts who have indicated that we have been visited by Extraterrestrials

- 1 Gordon Cooper, one of seven US astronauts in Project Mercury, observed a flying saucer landing at Edwards AFB in 1957, had written to the United Nations about his having observed Alien craft far more capable than anything he knew about possessed by our military.
- 2 Dr. Edgar Mitchell, the sixth man to walk on the moon, believed that Alien visitation had been to explore our military development and to guide us onto a more peaceful path.
- 3 Buzz Aldrin had admitted to having seen Alien UFOs in space. He passed a lie detector test on the matter as well.
- 4 Pavel Popovich, a Russian Cosmonaut, commander of Vostok 4 and Soyuz 14, while flying home with a delegation of scientists, saw a triangular shaped UFO.
- 5 Donald Slayton, an American Astronaut, flying a P-51 mustang observed a flying saucer.
- 6 There were others.

Testing the Extraterrestrial Hypothesis: Other Early Non-U.S. contactees

- 1 Janus, a self-proclaimed E.T., contacted Prince Philip of the U.K..
- 2 Professor Hernandez was contacted by Elyense (Lya), an E.T. posing as a student, in Mexico 1972-74 admitted that she was from the Andromeda Galaxy [19, chap6].
- 3 Maurizio Cavallo was enticed by an E.T. named Suell, meet other E.T.s , according to Paola Harris, in Italy.
- 4 In Italy, in the Pescara region, near the Adriatic Sea, the Amicizia (friendship) society consisted of human looking ETs lived in underground bases. and were helped by amicable locals
- 5 Luis Fernando Mostajo, an architect from Bolivia, was another contactee who reported having been taken to Venus and a moon of Jupiter called Gannymeade, where he observed other alien civilizations alive and well. Fernando Mostajo also reported a submerged reserve of aliens residing in Lake TiticcaTitivateta, Mexico. If these reports are true, we have many more relations to explore [5].

ET communication was reportedly established I

- 1 A 3 minute message was beamed at Messier 13 by 24 scientists at Arecibo Observatory in Puerto Rico in the early 1970s [17].
- 2 Messier 13 is a cluster of 300,000 stars about 24,000 light years away.
- 3 Project Sigma permitted communication [17] [19] [18].
- 4 Project Plato pursued the exchange program as Project Serpo [28].
- 5 The Omega Project [12], [9].

ET communication was reportedly established II

- ⑥ There have been multiple claims of collaboration of Ebens and U.S. Government—e.g., reports of Bob Lazar, David Adair, Capt. Bill Uhouse, Edgar Fouche and others with regard to reverse engineering of Alien technology.
- ⑦ Project Chrystal Night or Project Serpo was cited as a diplomatic exchange program of scientists and engineers that was undertaken for cooperation, according to former USAFOSI official, Richard C. Doty, [also see <http://www.serpo.org>]. [29]

Preparations: Pre-eminent issues, protocols, and preparations for communication, collaboration, coordination, and cooperation

- 1 Establishment of a protocol for communication. The protocol entails learning a common language through which communication will take place. Most Ebens communicate via telepathy.
- 2 Provision of essential environmental resources : clean air, potable water, adequate food, fruit, and vegetables, nutrients, along with adequate facilities for sewage and waste removal.
- 3 Provision of adequate environmental requirement: tolerable temperature range, viral and bacteriological contamination.
- 4 Emergency provisions for decontamination and hospitalization to save and secure lives of sentient beings from danger of deficiency to any of the following.

- 5 Sources of efficient fuel may be needed. Provisions for these should be available.
- 6 Protection from threats to the foregoing from tornados, floods, extreme snow storms, deep freezes, or hurricanes, etc.
- 7 Issues of colony settlement, cross-cultural tutelage, travel, and acculturation would have to be addressed.
- 8 We should try to be kinder, compassionate, and more protective of the flora and fauna in our environment. We need to treat Cataceans with more decency. If Whales, dolphins, and other sentient creatures sharing our earth do not threaten us, we should not needlessly hunt or hurt them.

Archquloids arrive to secretly meet with Eisenhower in 1954

Figure 8: Archquloid from Planet Pontel with universal translator device in hand

Archquloids secretly meet with President Eisenhower in Feb. 19-21, 1954

Figure 9: Archquloid saucer landing at Muroc (now Edwards) AFB

- Archquloids were cloned by EBENS acc. to Casey's briefing of President Reagan on 6-8 March 1981
- Source was a report Linda Moulton Howe read of that briefing [7].

The Greada Agreement Feb. 19-20, 1954 concluded with the Greys instead of the Pleiadians or Nordics

- 1 Reported conditions of agreement: There would be a scientific exchange over a ten year period, later reported to have lasted for 1964-1978 [28], [29].
- 2 There would be an exchange advanced technology in return for secret bases.
- 3 Shower heads on bases would have two nozzles: One for water and one for enzymes, to be supplied by the Alien visitors [25]. These were setup at Area 51(S4), or at Las Alamos, according to Richard Doty.
- 4 They would bring their own food source, which we would have to learn to culture at Area 51 [25].
- 5 List of all abductees who would be returned to place of abduction without injury and without memory of the event.
- 6 Eisenhower reportedly did not believe we could effectively prevent the abductions and genetic experimentation so we relented.
- 7 It provided for secret bases for the Ebens on Government or Reservation land.

- 9 Ebens could conduct experiments on abducted persons or twins as long as they would not be harmed.
- 10 A list of abductees was supposed to be provided to the U.S. Government.
- 11 Genetic experimentation to fortify species for space travel and to prevent Eben species from dying off.
- 12 Memories of the experiments and tests would be erased.
- 13 May have included animals (cattle or sheep) to test for effects of radiation contamination from areas where secret or underground tests had been performed.

Extraterrestrial Exposure Law 1969-1977

- ① enforced by special operations cadres
- ② to protect the health and security of the population from exposure to non-terrestrial pathogens
- ③ monitored by NASA and may result in quarantine of citizens without appeal

Treaty records

- Because the Archquloids wanted nuclear disarmament in return for technological support, Eisenhower declined to accept their terms.
- The Treaty was signed with the Greys instead.
- Owing to the repeated Saturday July 1952 overflight of Washington, D..C. by saucers, which out-maneuvered our scrambled interceptors and spotted on radar.
- Original treaty papers were reportedly kept at the Brookings Institute [16], [19].

Small Greys were about 3.5' tall and usually took directions from tall Greys and/or Mantis Ebens

Figure 10: small grey

Tall Greys were about 5'6" -9' tall and reportedly concluded the Greada Treaty with President Eisenhower

Treaty records

- Because the Archquloids wanted nuclear disarmament in return for technological assistance, Ike refused.
- The Treaty was signed with the Greys instead the following year.
- Original papers of the treaty were reportedly kept at the Brookings Institute [19]. [16]
- Friendly aliens should be treated with greatest respect and deference. We may need them to facilitate the pacific and amicable settlement of important disputes.

Lyrans follow a type C intervention protocol & came to earth about 22 million years ago [5, 95]

Michael E. Salla describes four intervention protocols pursued by different alien species:

- 1 Type A: Extraterrestrials establish ground teams and Earth bases with members integrating into human society for monitoring and influencing humanity's evolution. Vital interests of individuals are respected.
- 2 Type B: Extraterrestrials physically contact individuals, share information, take individuals into their ships to witness advanced technologies, and/or take individuals to extraterrestrial bases or societies. Vital interests of individuals are respected.
- 3 Type C: type C: hands-off approach: esoteric telepathic communication & spiritual guidance.
- 4 Type D: Extraterrestrials establish technology exchange agreements with covert government entities and/or gain permission for genetic upgrade programs, and basing rights. Vital interests of individuals are NOT respected. [5, 95].

First Lyrans came to earth about 22 million years ago

Figure 12: Pleiadians are descendants of the Lyrans

Lyrans from Pleiades

- Reported to come from the ring nebula of Lyra
- Lyrans are our oldest ancestors, keepers of the Galactic history of earthlings [19].
- Pleiadians are descendants of the Lyrans
- large black almond eyes
- have fought battles with Greys in past and warned Billy Meier about their lack of empathy & wisdom in dealing with earthlings
- type B intervention protocol with personal interaction, giving rides on craft, and warnings about negative E.T. species.
- Primary mission is to warn Earth about negative ET species: e.g., Greys with whom they had wars in past.

Despite the UFO ... Contact from Semjase, the Pleiadians were the first to warn Earth about the danger that Grey aliens posed. The Pleiadians accused the Greys of having a lack of wisdom and empathy when using technologically inferior humans to serve their evil, remorseless purposes.

Semjase, a Pleiadian, allowed herself and friends to be photographed while visiting Billy Meier

Investigated by USAF Lt. Col. Wendelle C. Stevens and no evidence of fraud was found.

Figure 13: Cosmonaut Semjase, a Pleiadian, visiting Billy Meier in Switzerland

Pleiadians: Source (Gostica.com)

- Pleiadians reportedly were descendants of the Lyrans
- the Pleiades star cluster is about 440 light-years from earth
- Semjase assured Billy that he would be their representative on earth.:
- that they came from Taygeta with main planet Erra [19].

We are neither guardians of Earth nor beings of God-sent angels or similar. Many persons suggest we are watching over Earth and her beings and would control their fates. This is not true because we only perform a self-selected mission which has nothing to do with supervising or regulating Earth's fate. Thus it is wrong to expose us as superterrestrial messengers and guardians.

- Lt. Col. Wendell Stevens visited Billy Meier and had his photos and other material tested. No evidence of fraud or fabrication was found (Stevens, Lt. Col. W. C., UFO ... Contacts from the Pleiades - Vols 1 & 2).

Semjase

- Semjase was reported to have been identified as Maria Orsic, the Vrtil society leader, who allegedly channelled the "beamship" blue-prints to the Nazi SS.]
- More current reports indicate the Pleiadians were trying to help mankind find freedom through education and consciousness raising from oppressive social structures.
- More recent Interaction with the Pleiadians seems overwhelmingly positive.
- SemJase seemed to maintain that they Greys were taking advantage of us.

Figure 14: Semjase, the female Pleiadian, appeared to be Maria Orsic, acc. to Lt. Col. Wendelle .C. Stevens's report of what Billy Meier told him.

SemJase's Beamship

Figure 15: SemJase's Beamship

Vegans

- Some, like the Arcturians (see picture on page 64), have blue skin, just like the Goddess Vishnu.
- In The book of Enoch, intermarriage between the Nephilim and humans and produced a race of giants that eventually died off [19].
- In a parallelism, Billy Meier mentions genetic experimentation between Lyrans and Vegans and humans produced a race of hybrid human –animals that eventually died off [19]

Valiant Thor, who claimed to be from Venus, appeared indistinguishable from an ordinary human,

Frank Stranges in *Stranger at the Pentagon* in the (1997 revised ed.) reported Valiant Thor to be a VIP guest and consultant to the Eisenhower administration for his 3 year visit. [10] wrote several books while visiting Washington, D.C. and his friends, Howard and Connie Menger, in High Bridge, N.J. Their ships were similar to those reported by earlier contactees: namely, George Adamski in *Flying Saucers have Landed* (1953) by Desmond Leslie and George Adamski [33].

Figure 16: Valiant Thor wrote several books during his three year visit

Valiant Thor with his space-traveling companions.

Valiant Thor, Jill, and Don visiting High Bridge, New Jersey.

Figure 17: Jill (left), Don(middle), and Valiant Thor (right) visiting Howard & Connie Menger in High Bridge, New Jersey

Telosians, tall whites

- Telosians were honored guests of the Pentagon, living on the Nellis range near Indian Springs, Nev.
- Friends of Charles James Hall, Jr. about whom he wrote in his Millennium Hospitality Vols 1-5 series.

Figure 18: Tall White, Telosian

Quadloids

- Putatively carnivores.
- Linda Moulton Howe claims she read that Quadloids were cloned by Ebens from humanoid lizards and praying Mantis aliens [7].
- Some are reptilian in appearance and reported to live in subterranean tunnel systems.
- Very intelligent and wise ETs according to Preston Dennett [20].
- Mantis insectoid (shapeshifters) Ebens.
- reportedly created by Ebens From Planet Otto in the Zeta Reticuli (approx. 39.5 light years from Earth) system

Mantis alien confronting young boy

Lacerta: a humanoid reptilian reportedly interviewed in Sweden on youtube

Trantaloids

- potentially hostile alien visitor (HAV) from Planet Silas in the Zeta-Reticuli system
- home is 10.5 light-years away in the third planet from Epsilon Eridani in the constellation Eridanus
- an insectoid species
- suspected of performing experiments on humans
- reputed to cross-breed with humans
- may be responsible for some cattle mutilations
- reportedly capable of appearing human (from Briefing of Ronald Reagan by DCI William Casey and others on E.T. presence on Earth)
- reportedly potentially dangerous to humans [7].

Some Ebens remain aloof and others have been attacked by panicked local people

- Other Ebens, who remain aloof from humans, due to human tribalistic, ethnocentric, xenophobic and hostile attitudes toward others:

Arcturians are among the more advanced and reserved Ebens, concerned that our inter-relationships are too barbaric and wasteful

reported on Aug 22 1955 in Hopkinsville, Ky., at the Sutton farm.

Hypotheses about E.T. agendas I

- 1 To prevent global nuclear war, as evidenced by the works of Valiant Thor [44], Steven Greer [43], and Linda Moulton Howe [10], amongst others.
- 2 To preserve the environmental habitability of the planet [10].
- 3 To reduce economic resource scarcity and war.
- 4 Purpose of abductions: To genetically enhance the human species by genetic experimentation and hybridization for telepathy, space travel and radiation resistance [12], [10], and [44].
- 5 To monitor genetic experimentation over long time scales [10].
- 6 The animal mutilations seem to be part of the genetic experimentation program of the aliens, sometimes supervised by the insectoid species [10]
- 7 The Greys routinely engage in genetic experimentation and enhancement after death. They seem involved in developing hybrid offspring to possibly facilitate genome empowerment [10].

Hypotheses about E.T. agendas II

- 8 Dr. Roger Leir, who passed away in 2014, had extracted alien implants from abductees and found them made of extraterrestrial materials.
- 9 Subsequent research by Dr. Stephen Colbern found that these implants may be used to track, monitor, and potentially influence humans.
- 10 They may want to teach man space law before he endeavors to engage in interplanetary colonization, interstellar mining, refining, commerce, environmental protection, and the pacific resolution of disputes before he begins polluting the galaxy and disturbing universal peace.
- 11 To render mankind sufficiently civilized to join a galactic federation (are we ready yet?)
- 12 Linda Moulton Howe, an investigative journalist, recounts a story as told by an abductee, Linda Porter, who was told that ET Greys after their demise. of an individual facilitate the transfer of souls in reincarnation through rapid-cycle cloning [8].

Hypotheses about E.T. agendas III

Mantis alien confronting young boy

Lacerta: a humanoid reptilian reportedly interviewed in Sweden on youtube

Findings: The Secret Antarctic War, Aug. 1946 to February, 1947 Operation High Jump

- Admiral Byrd was put in charge of Operation High Jump.
- Manifest objective: Explore Antarctica. Covert objective: Roust Nazis from New Swabenland Antarctic bases.
- Attack on Byrd's forces began on March 3, 1947 and forced to flee.
- Aircraft losses included two planes, two helicopters, and 4 aircraft lost, according to Peter Anderson, Office of Polar Programs, National Science Foundation, there were four aircraft lost in Operation High Jump.
- Haunebu saucers participated in the attack [23].

Findings: May 1951 US troops were disabled by UAPs during the Korean War

- April 18, 1951 Private Francis P. Wall's troops ordered villagers to evacuate and declared village as free-fire zone.
- Saucer monitored this activity and then approached.
- Private Wall obtained permission to fire armor piercing bullets at the saucer.
- Saucer returned fire by irradiating the US troops with a pulsed burning beam that was invisible to all not targeted.
- The troops were weakened, and in three days they were disabled with dysentery, needing mobile evacuation [23, 126].

Findings: Military engagements in the 1960s and 70s I

① 1976 Teheran. Attempted interception of flying saucer by an F-14 fighter in restricted military airspace failed.

- Flight and fire control capability in F-14 is disabled until pilot breaks off attempted interception.
- Only then does he escape crash and recaptures ability to return to base.

② Vietnam War

- US troops called UFOs "enemy helicopters" in Vietnam
- June 15, 1968, Lt. Pete Snyder in swift boat PCF-12 on the Cua Viet river received a request for help from Commander Richard Davis whose PT boat was being attacked by two enemy helicopters.
- Upon arriving on the scene, Snyder witnessed a blinding flash of light illuminate Davis's PT boat whereupon it exploded killing all but two servicemen.

Findings: Military engagements in the 1960s and 70s II

- Snyder filed a preliminary report and was ordered to continue his patrol.
- As two saucers approached the PT boat, Snyder requested air support. Attempts by the PT boat to fire upon the saucers had no effect.
- Two responding F-4 phantoms appeared to cause the saucers to depart [45].
- Attack on Allied Aussie destroyer with identical shells fired at the saucer from the second PT boat [23], [45].

Problems with Complete Disclosure

- The world is potentially a troublesome place.
- There are conflicts between autocracies (thugocracies), and representative governments.
- If too much is disclosed, some very bad people will try to weaponize it.
- Not all E.T. aliens appreciate the struggles over human history when they want us to unilaterally disarm
- Unilateral Disarmament is not a practical alternative
- A dynamic process must be developed to force conflict resolutions with respect to wars over resources, territory, sovereignty, personal freedom and dignity.
- Military imperialism and political annexation and subjugation need to be heavily sanctioned and opposed.
- Former CIA officer Jim Semivan gives the backstory behind the Pentagon Disclosure of the tic-tac and its implications in a podcast [39].
- Insinuated truth by persons of high status is not a scientific method by which we learn truth.
- This leaves us with a phenomenological predicament depriving us of empirical validation of insinuated reality.

Tragic accidents may follow from ignorance of potential hazards I

- 1 Jan 7, 1948: Capt. Thomas F. Mantell's P-51 Mustang crashed when he tried to intercept a flying saucer (unidentified aerial phenomenon).
- 2 Nov. 23, 1953. First Lt. Mencla and 2nd Lt. Robert L. Wilson were scrambled at Kinross AFB to investigate a UFO over Soo Locks on the Canadian border. Acc. to Donald Keyhoe, USMC, the radar blips merged into one which continued northward. The F-89C crew disappeared..
- 3 May 1967 Stefan Michalak stomach was burned when a saucer took off while he was too close at Falcon Lake, Manitoba, Canada.
- 4 Jan 1978 Death of small Grey eben at Fort Dix, McGuire AFB, NJ..
- 5 Oct 21 1978 Pilot Frederick Valentich disappeared after coming into contact with UAP off the southern coast of Australia.
- 6 1980 Christmas Holiday 1980 Betty Cash- Vicky Landrum were exposed to radiation leaking from a reverse engineered UFO. Exposure may accelerated death in one or more persons. Special operations military retrieved it but would not acknowledge ownership.

Tragic accidents may follow from ignorance of potential hazards II

- ⑦ 1980 Boxing Day RAF Bentwaters irradiation of military security personnel Sgt. John Burroughs & Jim Penniston in their approaching and/or touching the UFO.
- ⑧ 2002 January 14, Paintsville, Kentucky. Coal train crashes into a UAP hovering about 12 feet above the railroad tracks, severely damaging the engine [36].

Implications:

Caveats for investigation, interception or attack

- 1 to attack a flying saucer may lead to self-destruction; UAPs have overwhelming counter-measures and weapon systems: ETs can telepathically sense intended human aggression [23].
- 2 Troops who shot at saucers have been disabled or killed in the Korean & Vietnam wars [23].
- 3 Predatory hunting and endangering of innocents is deprecated by some Eben species.
- 4 Deadly incident In Virgíñha, Brazil:
 - Marco Chereze, a young, healthy military policeman spotted an E.T., seized it, put it in his car, and took it to the hospital for analysis (ET type in Figure 22).
 - After 23 days, his immune system collapsed, and he died from exposure to three ET pathogens.
 - Attempted physical contact with an E.T. may jeopardize one's health, if one does not protect his or her self from pathogenic exposure.
- 5 When three Russian divers in 1982 at Lake Baikal, Russia, tried to capture some amphibian Ebens, colloquially called "the swimmers", clad in silvery suits and helmets, at a depth of 50 meters in the lake."the swimmers" set off an underwater explosion that forced the Russians to suddenly surface, leading to the deaths of several Russian divers [26].

Implications: Caveats for proximity

Figure 20: Stefan Michalak's abdominal grid-pattern burns from proximity to saucer as it took off from the Falcon Lake rock outcropping, Manitoba, Canada May 1967

Implications: Caveats for investigation when approaching the craft

- 1 Be sure the craft and its landing zone is not emitting radioactivity before approaching it (Figure 20).
- 2 Do not touch craft surface before landing until it has removed its accumulated ionized plasma sheath by landing and grounding.
- 3 Meta-material surface can carry information via nanotubular photonic channels in non-ionizing frequencies, exposure to the harmonics of which can be biologically harmful to humans [2], [7].

Implications: Exposure to ET pathogens can be lethal

Figure 21: Photo of captured ET, exposure to whom led to a healthy 23 year old Brazilian military policeman's death in Brazil about 23 days thereafter

- a possible reason for Extraterrestrial Exposure Law in U.S.
- Data from Operation Plato reportedly held by Robert Bigelow (Bigelow Aerospace).

Figure 22: Photo of Similar EBEN spotted in Brazil

Implications of this consideration I

International surveillance of military threat

International disputes take place when one political faction or national state aggresses against another. To determine the nature of the hostilities and the identity of the initiator of those hostilities, it is necessary to have adequate means of monitoring the testing, development, and deployment of weapon systems against potential adversaries. While the development of arsenals is correlated and the perceived balance of force exists, there is likely to be a form of military deterrence. When the configuration of forces becomes seriously unbalanced, the risk of hostilities grows. The systems that perform this surveillance are necessary for national security and need to be safeguarded, maintained, and improved. A threat to such systems is a threat to our critical infrastructure.

Implications of this consideration II

Arms control of weapons of mass destruction

Without proper arms control, weapons of mass destruction along with their delivery systems can threaten the destruction of the planet. Proper arms control requires limits on the destructive capability of the weapon, the number of weapon systems, **along with the associated ranges and velocities of their delivery systems**. There need to be limits as to their distribution and who may acquire such systems. All of these agreements must have reliable means of compliance verification. Without such assurance, the arms control is neither stable nor secure.

Arms control of proliferation of WMD

There needs to be a list of WMD, the distribution of which is prohibited. Weapons of these types would include international computer networks, bioweapons, full-spectrum weapons, nuclear, and chemical weapons the controlled focus of which is impossible. Any terrorist group attempting to acquire such weapons would be a threat of terrorist attack, false flag attacks and the undermining of peace through deterrence.

Implications of this consideration III

Gradual reciprocal WMD arsenal reduction

In the event of a growing imbalance of forces, or a conflict between countries in possession of WMD, a protocol of reciprocal reduction of WMD arsenals should be initiated to de-escalate the risk of global holocaust. The delivery systems of these weapons would have to be included in the repeated reciprocal reduction of WMD and their delivery systems, all of which would have to be verified to coordinate the mutual de-escalation.

Membership in the Global Security Pact

In the event of a growing imbalance of alliance forces, or a conflict between countries in possession of WMD, a protocol of reciprocal reduction of WMD arsenals should be initiated to de-escalate the risk of global holocaust. The delivery systems (including hypersonic missiles) of these weapons would have to be included in the repeated reciprocal reduction of WMD and their delivery systems, all of which would have to be verified to coordinate the mutual de-escalation. To provide for a global security, any country acquiring such WMD systems would have to become a member to the Arms Control Pact or suffer global pariah status with all attendant sanctions.

Transnational Terrorism and navigation constriction

- 1 Can we protect the weapons surveillance systems around the globe from attack?
- 2 Do we have backup systems in the event of an attempted attack on those systems?
- 3 Can we get alliance cooperation in preventing WMD non-proliferation?
- 4 We need to have a *universal off-limits protection* of our **critical infrastructure**—including our military surveillance systems, electoral systems, power grids, nuclear, chemical, water treatment, health, food and agricultural facilities, among others.
- 5 Can we interdict emerging threats by pirates or terrorists in the oceans and along areas of coastal instability?
- 6 Can we identify and neutralize sects/cults or states trying to use nuclear, biological, chemical, cyber, or electromagnetic weapons to extort their objectives?
- 7 We need to secure the transportation on land, the high seas, in the air, or in space.
- 8 How can we enlist the Ebens to help us prevent WMD holocaust?
- 9 How can or do we enlist the Ebens to help us make a more cooperative, productive, and happier world?

Implications and Directions for future research according to Deardorf, J. Haisch, B., Maccabee, B., and Putoff, H.E., 2005

- 1 We are being visited and have been for some time [30].
- 2 The E.T. Hypothesis is now the most plausible scientific explanation of high quality UFO sightings.
- 3 This evidence challenges the findings of the 1968 Condon Committee (which committee did not have access to all the information on the subject) Report for the US Air Force
- 4 Faster than light travel may be possible, by warping space with a form of "warp drive" [30].
- 5 Maintenance of traversable wormholes needs to be researched.
- 6 It may be possible to generate endless power from the vacuum of space, obviating the need from fossil fuel for energy [30].
- 7 Interstellar travel may be practical and practicable according to scientific principles not yet understood [30].

Other inconvenient implications I

- ① We do not have complete control of our skies.
- ② Some EBENS do not have vocal chords and communicate via telepathy. Some humans may not be prepared for living in an environment where there can be no expectation of mental privacy of thought. A hive-mind is not an environment with which people may feel comfortable. Nor is it an environment that current U.S. law is advanced enough to acknowledge or tolerate as yet.
- ③ High priority has to be given to developing a mutual communication system or language.

Other inconvenient implications II

- ④ E.T.s may be friend, foe, lost, or neutral, and/or unknown. If unknown and/or neutral or lost, the Eben should not be presumed hostile. It may be potentially friendly if properly approached.
- ⑤ E.T.s may be turned into a friend or ally if properly treated at first.
- ⑥ Preston Dennett has written about many "miraculous healings" performed by EBENs for individuals selected by them aboard their craft [21]. These actions indicate their benevolence with regard to people.

Other inconvenient implications III

- 7 Captain Jeffrey Flynn, retired notes that the Russians were trying to develop a LIDA machine since the 1950s to read and control human minds and behavior. We have to have a system to prevent abusive application of such a system to disable people [34]. For more information, refer to Cheryl Welsch [35].
- 8 Insinuated statements of knowledge by persons of status are not a valid scientific basis for truth.
- 9 It is better to communicate and to inquire before jumping to erroneous hostile interaction, when a the friend-foe status of an intruding craft remains unidentified.
- 10 Inadvertent hostile posture should be avoided if at all possible.

Other inconvenient implications IV

- 11 EBENS should be treated as diplomatic envoys of other political systems and granted every possible courtesy.
- 12 There is ample evidence that some of them may have been here before our governments were formed.
- 13 Not all EBENS are innocuous or non-dangerous. Be careful of viral contamination of any party under consideration.
- 14 Try to avoid any inadvertent offense; Treat the E.T. with respect and dignity.
